

LYUDMILA SCHEPINA

Frontend developer

About me: Motivated front-end developer with experience building SPAs using React, Redux, Redux toolkit, HTML, CSS, JS, TS. Now I improve my skills in this direction and expanding them with new technologies
I'm planning to study Node.js, because in the future I see myself as a Full-stack.
I approach my work responsibly, I take on complex tasks, I easily learn new things material.
In my free time I solve tasks on codewars and improve my English.

My portfolio [🔗](#)

EXPERIENCE

- 09.2022 - **Frontend developer**
FREELANCE
Took part in creating client part of an online store for ordering pizza. Developed: login and profile page, feedback form, ability to add goods to the cart (functionality of saving the cart in localStorage).
Check the correctness of the code with Unit tests.
Stack used: React, Redux toolkit, TypeScript, MaterialUI, Formik, html, css
- 04.2022 - 09.2022 **Personal manager**
TINKOFF
Advising clients on bank products; Improving communication skills
Active participation in optimization processes, finalizing them to their logical conclusion.
- 09.2021 - 03.2022 **Frontend developer**
FREELANCE
CRM for the theater - Layout development in Figma and site layout according to this layout.
Development of functionality for booking tickets, creation of a form for sending data. Further support of the site: updating the poster, photo and video content.
CRM for an accounting services company: creating a unique design for a company, layout site, creating a form for sending contact information.
Stack used: js, Html, css
- 03.2020 - 09.2021 **Business process analyst**
TISS
Identification of the need for improvements in the software among users, coordination of these requirements with the management. Writing technical specifications, drawing IDEF0, bpmn schemes and, if necessary, drawing forms.
Coordination of SRD with the IT department (Setting deadlines for the implementation of TOR and monitoring fulfillment of the SRD within the established deadlines).
Improvement testing
